

## Product manager

Full-time in Munich

Would you like to define the way care is delivered to patients in the future? As junior product manager you will take over responsibility from day one and not only become a better product manager, but also have the chance to grow together with the company into a leadership role.

### Your role in a nutshell

- Put your creativity to work in finding solutions for people who often don't proactively look for them
- Do hands-on field research about customer and user needs
- Design user experiences and services that best meet the needs of nurses and the requirements of their medical working environment

### What we offer

- Flexible, autonomous work in an agile multi-disciplinary product team
- Steep learning curve and freedom to take responsibility and grow as much as you desire
- Great working atmosphere and a culture that strongly emphasizes learning, well-being and social impact

### What we look for

- Strong empathy and people skills, a person who thrives in social interactions
- First demonstrable working experiences as a product manager
- Willingness to set ambitious goals and take responsibility for them
- First experience with heterogeneous user groups (wrt. age & tech affinity) is a plus

### About Cliniserve

Cliniserve was founded in 2017 with the mission of building software for hospitals that reduces administrative and logistical work of care personnel. We have since then developed a SaaS software that is used by over 10 customers, including high-profile hospitals like the LMU University Hospital, Schön and Helios. Our founder team has studied and in top universities like UC Berkeley, Georgia Tech, LMU, TUM and worked in organisations like TUM University Hospital, AWS and Personio.
