

ReactJS frontend development

Intern / working student - full-time/part-time in Munich

Develop into a kick-ass javascript developer by gaining first-hand practical experience next to your studies. You will not only have a steep learning curve but working closely with our CTO, but will also have a social impact by helping us solve the issue of personnel shortage in nursing.

Your role in a nutshell

- Develop new features and implement improvements to our application
- Shorten our product backlog and work autonomously in an agile product team
- Work with state-of-the art Javascript frameworks like React and Meteor

What we offer

- Learn to work in an agile multi-disciplinary product team
- Have a steep learning curve working directly with our CTO and daily code quality reviews
- Great working atmosphere and a culture that strongly emphasizes learning, well-being and social impact

What we look for

- The mentality of an open-minded, driven and honest teamplayer
- First experience in web-development, Javascript and functional programming
- Pride in being a good software engineer in a world where everyone "can code"
- Willingness to learn and take responsibility for your goals

About Cliniserve

Cliniserve was founded in 2017 with the mission of building software for hospitals that reduces administrative and logistical work of care personnel. We have since then developed a SaaS software that is used by over 10 customers, including high-profile hospitals like the LMU University Hospital, Schön and Helios. Our founder team has studied in top universities like UC Berkeley, Georgia Tech, LMU, TUM and worked in organisations like TUM University Hospital, AWS and Personio.
